

Ladder & Steps Training Course

Traditional ladders and steps are still very much in use throughout UK industry, but if used incorrectly they can be the most unforgiving piece of work at height equipment.

Working At Height offer a nationally recognised half day ladder and steps course which instructs delegates in the safe use of ladders, step ladders or podium steps

Course Syllabus

- Employer & User Responsibilities
- Work At Height Regulations
- Risk Avoidance
- Ladder Standards and Classification
- Introduction to Safe Use of Ladders & Steps
- The Importance of Planning Ahead
- Taking Care of Ladders & Steps

Course duration:

Half-day (4 hours)

Maximum Delegates:

10 maximum

Delegates who successfully complete this course will receive:

Certification valid for 3 years

Criteria required for training to commence:

- Classroom for theory with table chairs and an electrical socket
- Appropriate ladders and steps in sound condition
- Delegates must have appropriate PPE
